## Nature Of Opinion

Docket Number: E-01575A-15-0127

Docket Position: Against

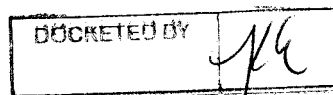

ACC, Please consider the underlying position of SSVEC to increase rates to all customers: 1 - Fairness and liability. In the hearings SSVEC admitted that it's rate structure was NOT developed to handle new technologies (e.g. Solar customers) ... yet SSVEC released an onslaught of documentation (to the public and for public dissemination) blaming it's current Solar Customers for (potential losses in revenue). Such actions warrant investigation! Why is SSVEC pushing the blame? Could their actions be considered public slander? Please challenge! DOCKETS: E-01575A-15-0236, E-01575A-15-0264, E-01575A-15-0312 2 - As provided before ... the (potential losses) provided publicly do NOT warrant the requested rate hikes. If a Rate Hike is required ... I plead that the ACC challenge the amount requested. Is it equitable and fair? The solution cannot always default to raise the cost of energy. 3 - Why aren't business Solar Farms being targeted along with Solar Customers? If Solar is BAD ... why the inequality of treatment. 4 - Demand SSVEC come to the table with SOLAR and the rest of the electric community to resolve, vice producing negative propaganda!
